

Zoological Colloquium

Summer Term 2021

Tuesday, 17.15 - 18.15 pm | [BigBlueButton Zoologie](#)

27.04. | Prof. Dr. Susanne Renner (LMU, München) | Gabriele Uhl
Why did Humboldt fake his plant data?

04.05. | Dr. Jana Isanta-Navarro (University of Montana, USA) | Alexander Wacker
Lessons from Lake Constance: Eco-Evolutionary dynamics at the phytoplankton-*Daphnia* interface

18.05. | Dr. Bianka Grunow (Leibniz-Institut für Nutztierbiologie, Dummerstorf) | Steffen Harzsche
3Rs in fish research – Ways to minimise experiments on fish!

25.05. | Prof. Dr. Christian Pansch-Hattich (Åbo Akademi University, Finland) | Alexander Wacker
From species to communities – The role of environmental variability in a climate change context

01.06. | PD Dr. Elisabeta Briski (GeoMar Kiel) | Steffen Harzsche
Are Ponto-Caspian species inherently better colonizers than species from other regions?

08.06. | Dr. Alexander Scheuerlein (Universität Greifswald) | Gerald Kerth
„Wisdom“, Bats, and Grandmothers: A Life History Perspective

15.06. | Dr. Jan Heuschele (University of Oslo, Norway) | Erik Sperfeld
Benefits and approaches of studying individuals in plankton ecology and ecotoxicology

22.06. | Dr. Jonas Wolff (Universität Greifswald) | Gabriele Uhl
Spines, claws and sticky goo: The biomechanics of predator-prey interactions in arachnids

29.06. | Dr. Erik Sperfeld (Universität Greifswald) | Alexander Wacker
Effects of changing environmental conditions and resource supply on plankton organisms

10. - 12.05. | [26th DZG Graduate Meeting Evolutionary Biology](#)

Topic: Animal Communication & Sexual Selection

Host: Monika Eberhard (Universität Greifswald)
